

Institut AGUETTANT

RESEARCH PRIZE

Clinical nutrition
Scientific expertise
Clinical research
Development

European Research Prize

Institut Agueffant is dedicated to micronutrients, essential elements in clinical nutrition.

Little is known about micronutrients and training is inadequate during medical education. This is the reason why the Institut Agueffant, thanks to its **European Research Prize**, wishes to encourage knowledge improvement on trace elements, electrolytes and vitamins.

A major vocation of the Institut Agueffant is to **support research**. The Institute rewards a **European clinical or fundamental research project** on essential micronutrients in clinical or therapeutic nutrition.

Application files will be sent upon request to **club@institut-agueffant.org** and must be submitted by October 31st, 2015.

The laureates will be awarded during the Journées Francophones de Nutrition to be held on December 10th, 2015 in Marseille - France.

**A €15 000 research award
will be granted to the supported project.**

● A simple procedure

Application files can be requested at: club@institut-aguettant.org
Deadline for submission is October 31st, 2015 at the same e-mail
(all application files must be filled in English)

● October

Review of applications and selection
of the supported project

● November

Presentation of the Research Prize at
the Institut Aguettant Symposium,
during the Journées Francophones de Nutrition
in Marseille on December 10th, 2015

● December

An assessment committee composed of european experts ●

Prof Dileep Lobo
(University of Nottingham
United Kingdom)

Prof Alastair Forbes
(University of East Anglia,
United Kingdom)

Prof Pierre Déchelotte
(Rouen University Hospital,
France) *Chairman*
